Satisfy your craving for **speed, performance, and reliability** with the UP-X500 POS System from Sharp.

With innovative technology, high performance features, and flexible expansion possibilities, the Sharp UP-X500 POS System is the ideal choice for upscale hospitality environments. The advanced architecture provides lightning-fast processing speeds, enhancing operations and increasing customer satisfaction. And with a wide range of optional peripherals and software, the UP-X500 can be easily customized to fit your needs today—and as your business grows.

The right ingredients deliver enhanced operations

- › Brilliant 12.1" TFT Color LCD display for optimum clarity and viewing in various environments
- › User-friendly analog touch-panel display with Pen Touch technology speeds up order entry and increases accuracy
- › Touch Panel software enables you to adjust the sensitivity of the touch-panel display
- › Innovative ESP architecture and improved Bus implementation delivers enhanced processing speeds for faster performance and increased efficiency
- › Versatile 3-track ISO 7811 Magnetic Stripe Reader covers credit transactions as well as specialized applications
- › Sleek, high-style design for discreet placement in upscale establishments
- › Small footprint requires minimal space

Optional accessories for a customized solution

Customize the UP-X500 to suit your business needs with operator and/or remote pole display, cash drawers and printers.

Expandable features that can grow with your business

- › Standard 128MB memory, expandable to 640 MB
- › 30 GB 2.5" Hard Disk Drive capacity or larger
- › Standard 10Base T/100 Base TX Ethernet LAN port for optional peripherals and communications
- › PCMCIA slot allows for system expansion including wireless functionality, system backup, archiving or internal modem
- › Versatile I/O ports allow for expansion and customization
 - Serial, Parallel, and USB ports
 - PS2 port for adding an AT key board
 - External XGA video output
 - Specialized cash drawer ports enable you to maximize the number of printers on the system

Flexible software options for optimized management capabilities

- › Windows® 2000 or Windows® XP
- › Industry-standard OPOS driver technology delivers enhanced POS control and maximum flexibility
 - API Service and Control objects
 - Test utilities for Sharp peripherals
- › Multimedia capability makes it easy to utilize audio/visual training components

High Performance POS System
